Prime Minister

Parliament House  
Canberra Act 2600

**Regarding** Terrorist Group ISIS and ISIL Created,  
Funded and Trained by the Americans

Dear Prime Minister

Please find enclosed the following 12  
pages proving ISIS and ISIL was created by the American  
CIA and is now funded and trained by the United States  
Government.

A Few Questions Need to be asked now: -

- 1) Was ASIO, Australian Federal Police or any part of  
Australian Military also assisted in the funding and  
training of this Newest Terrorist Group
- 2) Doesn't that leave ASIO, Australian Federal Police  
and Australian State Police Terrorist – Counter  
Terrorist Units and Australian Military useless at  
combating, fighting these Terrorist Groups when  
your puppet leader friends the Americans are  
funding and training these groups.

I am calling for the American Ambassador to Australia  
and his Terrorist Recruiting Headquarters in Australia  
that American Consulate and Embassy in Australia to be  
shut down.

# Australian Prime Minister Tony

Abbott needs to send a message to America that creating Terrorist Groups of madmen all about the World and then acting all innocent and making out they are innocent as if these Terrorist Groups just sprang out of nowhere.

Is unacceptable, I just finished watching a Video of a violent protest in Sydney Australia by some of these radical Muslims living in Sydney, and before this is all over we will have car bombs going off.

IDU's going off.

Gun Battles.

And blood running down the streets of Sydney and Melbourne and who is the blame America for creating these Terrorist Groups in the first place.

Yours truly

Lloyd T Vance
